Automatic Boom Barrier Gate For Office Building Access

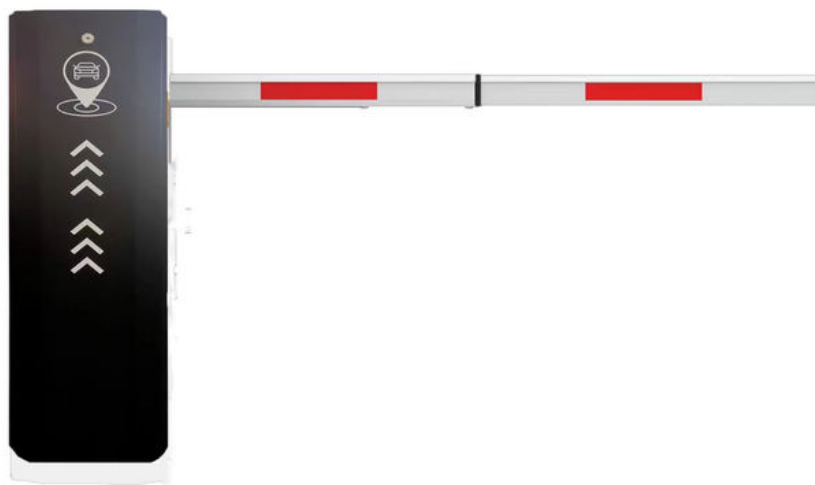

Gate Barriers

Product Description

Advantages

Places with a high possibility of heavy traffic can use boom barriers to automatically direct incoming and outgoing vehicles. Made of high-quality materials, waterproof technology, and immune to corrosion, making it stand ahead in the test of time.

Boom barriers can be linked to a 24/7 surveillance system, access control system, or traffic monitoring system to ensure maximum security. They require quite low maintenance which reduces downtime for the machine. Compatible with both manual and automatic operation, our boom barrier gate is an electro-mechanical device that functions without heating up and causing unnecessary delays.
