

DC24V Brushless Swing Gate Motor With Operation Lifetime 5 Million Times

Our Product Introduction

for more products please visit us on automaticbarriersgates.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: CBG, CBG
- Model Number: 18A-1
- Price: \$139.00/pieces 1-99 pieces
- Packaging Details: One carton for 1pcs 18A motor
- Supply Ability: 2000 Piece/Pieces per Month

Product Specification

- Warranty: 2 Years
- Voltage: DC24V
- Insulation Class: F
- Operation Lifetime: ≥ 5 Million Times
- Output Power: 30W
- Feature: Durable
- Color: Optional
- Altitude: 1000M Or Lower
- Port: Shenzhen
- Highlight: **Brushless Swing Gate Motor,
5 Million Times Swing Gate Motor,
DC24V Barrier Gate Motor**

Product Description

CBG DC24V Brushless Swing Gate Operator Motor With Operation Lifetime 5 Million Times

Company Profile

Product Introduction

Because pedestrian advertising door adds a unique advertising light box on the traditional iron door, the unique night lighting effect, not only improves the high-end image of the street community entrance and exit, but also provides a rich variety of choices for the wide dissemination of media advertising information, increases the information bridge between the street community owners and the property, and is the only choice for current and future property management facilities.

Company

Products Description

Voltage: DC24V

Output Power: 30W

Current: 1.5A

Gate Operation Time: 3-6S

Insulation Class: F

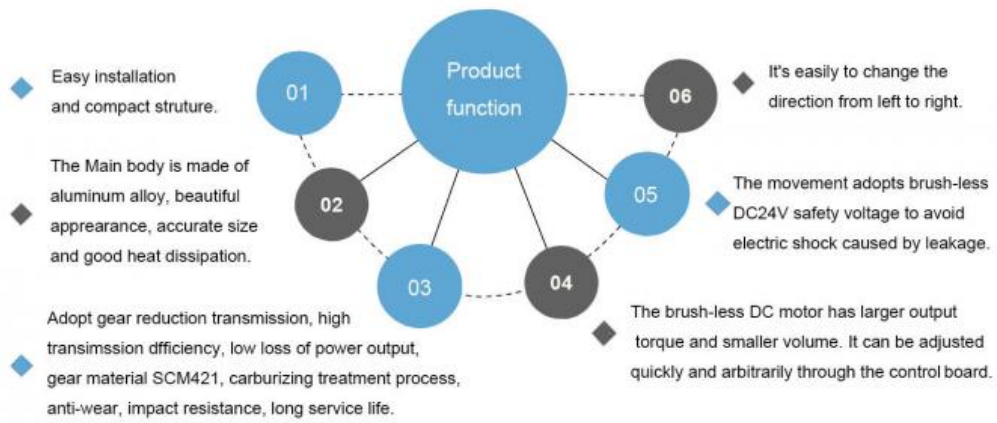

Operation Lifetime: >=5 Million Times

Temperature Range: -30°C to +70°C

Humidity: 85% or lower

Altitude: 1000 Meter or Lower

Applications: Mainly suited for controlling rapid response gates such as swing gates or barrier lift gates (single or double jointed)

18A accessory details

18A control board

The packaging of 18A unit motor

1. Cover with plastic and put the motor in the carton.

2. Seal the carton with tape

Single net weight: 5kg Single package carton size: 29.5X20.8X13.2CM Package Type: Carton or Wooden case

Old and New Product's Difference

Before:

1) Worm gear, general appearance 2) The previous products use with Rv50 reducer and added the splint to compose the movement. The worm gear is a consumable product. After using a long time, there will be a large gap, the pole will be not stable and shake so will cause the gear reducer to grind. 3) The products mainly used with AC 220V motor, the fixed speed was not adjustable. 4) Open structure, a low degree of protection, easy to enter water. 5) AC220V. 6) During installation, needs to adjusted the magnet position to ensure the door opening angle. After a long time, the shaking will affect the limit position or the pole may be deviated downwards.

After:

1) Gear transmission structure, beautiful appearance, compact structure, strong overall sense. 2) The new products are tailor-made for this industry and the gear adopts the processing technology of worm grinding wheel grinding after heat treatment, fine rolling of hard alloy hob, etc., the accuracy grade \geq GB / T100951, 2-2001 7 level. 3)The new product uses with DC brushless motor to avoid the problem of carbon brush life. Adjustable speed. 4)The entire seal structure, high degree of protection (\geq IP55); have a rainproof capability. 5) DC24V(Safe voltage) 6) Installed the chassis, adjust the position automatically after power on, and adjust the angle of rising pole and falling pole at will.
