

Parking Access Control Barrier Gate 140W Power Supply Waterproof

Our Product Introduction

for more products please visit us on automaticbarriersgates.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: CBG
- Model Number: 18B-ZY
- Minimum Order Quantity: 2 pieces
- Price: \$360.00/pieces 2-99 pieces

Product Specification

- Working Temperature: -30-60°C
- Power Supply: 140W
- Usage: Outdoor
- Boom Barrier Length: 1.5-6M
- Work Voltage: DC-24V
- Feature: Waterproof
- Operating Speed: 0.3-6s(Depend On Arm Length)
- Insulation Level: F
- Operating Life: >5 Million
- Warranty: 2 Years
- Highlight: Parking Access Control Boom Barrier,
140W Access Control Barrier,
Access Control Barrier Waterproof

Product Description

140W Power Supply Barrier Gate Parking Access Control Boom Barrier With Waterproof

Product Description

Overview

Company Profile

Product description

Benefits

1. Enhanced security

These days, both business and residential properties need to be secure. You can allow or prohibit vehicles from entering your property by erecting a boom gate based on their credentials. A car cannot access your property if you don't want it to.

Using a boom gate, you can keep track of and log the registration information for each and every vehicle that enters and exits your property.

2. Control the traffic flow

The greatest approach to regulating traffic entering and leaving your property is using boom gates. This is crucial for sites with few parking places that frequently draw many automobiles.

You may manage how many vehicles are on your property at any given moment by using a boom gate. Additionally, you can bar admission if your parking lot is already full.

3. Reduce security expenses.

Long-term, a boom gate will save you money on security expenses. The installation of the boom gate security system will cost you once, but after that, maintenance costs are minimal.

A boom gate can frequently replace or assist a security guard. Once it is implemented, you won't have to pay for continuing security.

4. Profit from parking lots

A boom gate with a ticketing system is the ideal solution to generate income if you have a parking lot. They will be obliged to accept a ticket as soon as a car approaches, and the boom gate won't allow them to leave until they have paid for their parking period.

Parking fees can be a very profitable business, particularly if your facility has a car park in a prominent or central position.

5. Immediately private

Are you tired of folks driving by your property and acting strangely? In that case, a boom gate will instantly provide you with privacy.

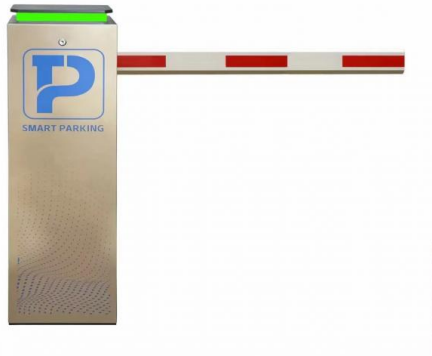

A boom gate is an excellent option if you own commercial property and want to safeguard your intellectual property, and business secrets, and

stop theft. Additionally, a boom gate can safeguard your inhabitants' privacy if you operate a residential building.

6. Effective space use

A boom gate system is the most space-efficient type of gate there is. Sliding gates and swinging gates need more room at the entrance. A boom gate, on the other hand, just requires a tiny amount of vertical space to swing upwards.

Parameters

Technical Parameters

Size	230*300*980mm
Power supply	DC 24V
Open/close speed	0.3s to 6s
Working temperature	-30~60°C
Rated power	140w
Motor rated speed	1500r/min
Humidity	<=85%
Remote control distance	30 m
Max boom length	6m
External power	220V 50/60HZ
