

## 140W Road Safety Barrier Parking Boom Gate Waterproof For Entrance And Exit

Our Product Introduction

for more products please visit us on [automaticbarriersgates.com](http://automaticbarriersgates.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: CBG
- Model Number: 18B-ZY-7
- Minimum Order Quantity: 2 pieces
- Price: \$360.00/pieces 2-99 pieces

### Product Specification

- Working Temperature: -30-60°C
- Power Supply: 140W
- Usage: Outdoor
- Boom Barrier Length: 1.5-6M
- Work Voltage: DC-24V
- Feature: Waterproof
- Operating Speed: 0.3-6s(Depend On Arm Length)
- Insulation Level: F
- Operating Life: >5 Million
- Warranty: 2 Years
- Highlight: **140W Road Safety Barrier, Waterproof Road Safety Barrier, Entrance Parking Boom Gate**

## Product Description

# 140W Power Supply Road Safety Barrier Parking Boom Barrier Gate For Entrance And Exit

## Product Description

### Overview

#### Benefits

1. save money on labour overheads

Investing in multiple security guards for different times of the day and paying them wages for months together can be quite costly. However, boom barriers being a one-time investment, is the most cost-effective solution for your business.

2. Automatic control of heavy traffic flow

With limited parking space for areas like airport car parks and shopping centres, boom gates can be used to control the flow of traffic in and out of these premises and restrict further traffic inflow when the premises is completely occupied. Moreover, it can also be used to prevent access to restricted areas.

3. Save space on the premises

Having a security guard might require your business to set up a booth to facilitate ticket collection or check the identity of the visitors to the business premises. Boom gates, on the other hand, only require a small amount of space for the bar to move vertically upwards and back to its normal position. This feature makes boom gates the most convenient option to have almost anywhere.

## Company Profile

### Product description

- 1.-The traffic barrier is widely used for the facilities of parking, traffic or toll system.
- 2.-Arms can be chosen from 1.5 meters to 6 meters.
- 3.-This type of barrier could match with direct boom( pole), fold boom Or fence boom..
