## Product Description

### Insulation Level F Parking Car Toll Barrier Gate With 1.5-6M Boom Length Straight Arm

#### Product Description

##### Benifits

Automatic boom barriers are practical solutions that are cost-effective as well as highly efficient in traffic management. They are designed to work throughout the day and night without any hindrance or hurdles.

We provide a broad spectrum of Automatic Boom Barriers for providing security at the entry and departure points of official spaces, toll tax regions, and other locations.

Boom barriers can be linked to any Surveillance System, Access Control System, or Traffic Monitoring System to ensure maximum security. Besides, they require very little maintenance which automatically reduces the downtime for the machine. Paired with 24V AC drive units, these boom barriers are electro-mechanical devices that function without heating up and causing unnecessary delays.
