

## Automatic Boom Barrier Remote Control Signal Receiver

Our Product Introduction

for more products please visit us on [automaticbarriersgates.com](http://automaticbarriersgates.com)

### Basic Information

- Minimum Order Quantity: 1
- Payment Terms: L/C, T/T

### Product Specification

- Product Name: Boom Barrier Remote Control Signal Receiver
- Material: ABS
- Application: Automatic Barrier Gate
- Color: White
- Keyword: Road Barrier, Boom Barrier, Barrier Gate
- Type: Wireless
- Weight: 0.5kg
- Warranty: 1
- Highlight: **Barrier Remote Control Signal Receiver, Automatic Remote Control Signal Receiver, Automatic Gate Remote Receiver**

## Product Description

Receiver For Boom Barrier

### Product Description

#### Function

The receiver has a material on its back that conducts electricity. When the remote control button is pressed, this material makes contact with a board and closes the circuit that corresponds to the command of the button. A small integrated circuit recognizes the signal and determines which button was pressed; based on that information it sends a signal, it returns it with a certain frequency. This impulse is transmitted to an LED that sends it converted into infrared radiation. The receiver can recognize the pressed button by measuring the frequency of the radiation.

### Specification

Color	white
Material	ABS
