## Product Description

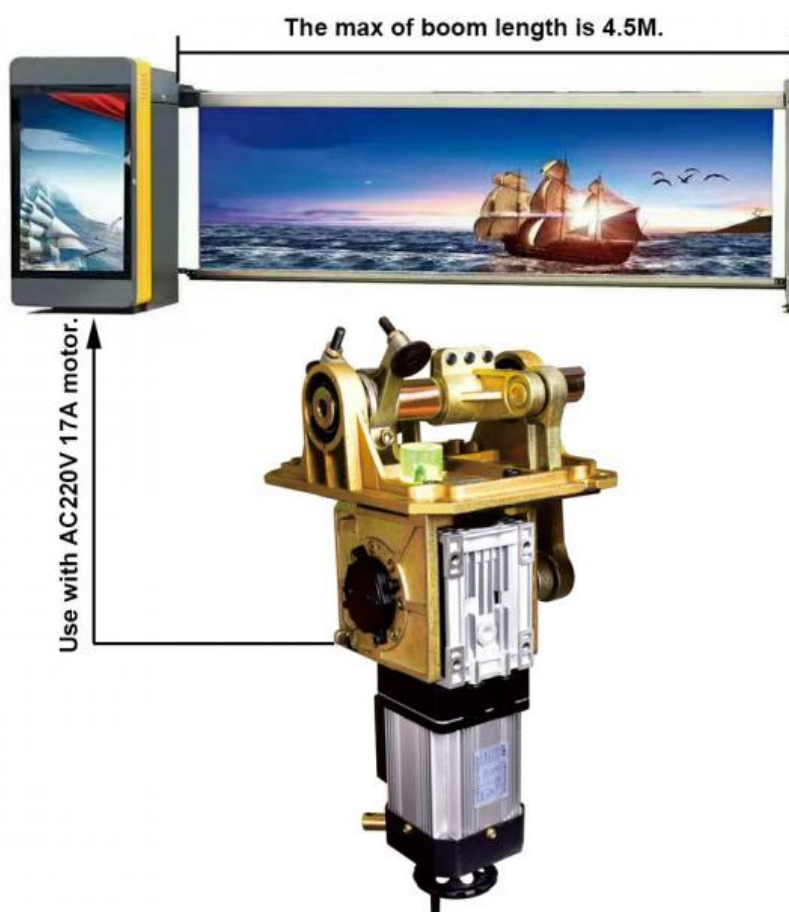

180W/250W AC220V Remote Control Lifting Parking Advertising Barrier Boom Gate

### Products Description

AC220V Remote Control Lifting Parking Advertising Barrier Boom Gate is a mosaic of high strength aluminum blades. It is a perfect combination of optics and electricity. The barrier housing is a very rugged and sturdy material which is splash proof and dust proof to avoid corrosion so it can be mounted outdoor without any covering/housing. Both barrier housing and arm plate are equipped with LED lights which can be controlled via timer for setting up of time wise activations. It has inbuilt pressure sensor which performs the auto open function.

It also has anti – crash function which enables the barrier remains open if any car stay under the arm. The length of the boom and arm plates can be customized as per the requirement. The bottom of the boom is sealed with rubber which prevents the barrier in case of any unwanted incidents. Boom plate turns while boom lifts for displaying the advertising function.

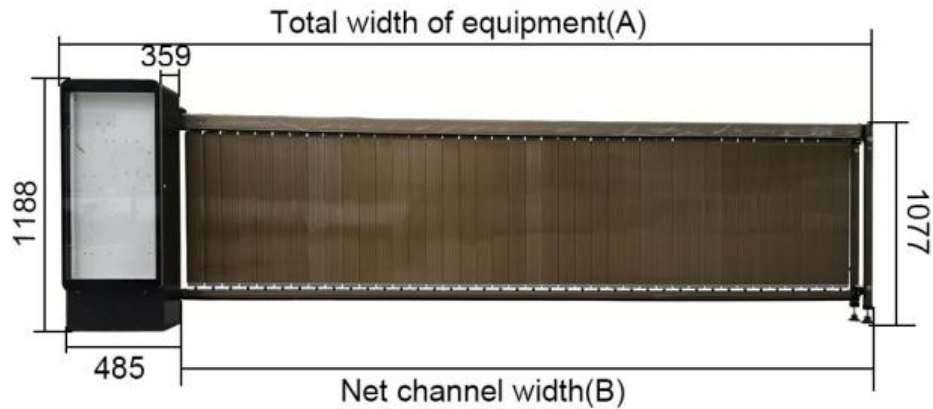

At night with the well litted background, Advertising is more beautiful on the barrier. The barrier can be operated in multiple ways through remote controller, push button and long range reader. The barrier can be operated manually in case of power failure or emergency.
