

Aluminum Alloy Road Safety Barrier Parking Boom Gate for Entrance and Exit Waterproof

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: CBG
- Model Number: 21B
- Minimum Order Quantity: 2 pieces
- Price: \$268.00/pieces 2-99 pieces

Product Specification

- Material: Mild Steel With Color Powder
- Boom Length: <6m
- Arm Type: Folding, Fence, Straight, Optional(straight)
- Motor: DC,120W, 24V, Torque Motor
- Housing Color: Red/yellow/grey/etc
- Arm Material: Aluminum Alloy
- Highlight: **Entrance Road Safety Barrier,
Waterproof Road Safety Barrier,
Aluminum Alloy Road Safety Barrier**

Product Description

120W Power Supply Road Safety Barrier Parking Boom Barrier Gate For Entrance And Exit

Product Description

Overview

There are three main transmission modes of road barrier gate: straight arm road gate, which is suitable for all kinds of intersections, its design is simple and intuitive; The folding arm gate is suitable for the wide entrance of the road surface wider than the height, and the brake rod presents a unique curved arm shape when it is withdrawn. The manual barrier gate is designed for the highway toll station, mainly used to restrict vehicles to enter the lane, is the standard configuration of the toll station.

Intelligent gate is an advanced equipment, its core feature is high reliability, precise control by the microprocessor, with special torque motor, to ensure long-term stable operation. It is excellent anti-rust and can adapt to various environments. The intelligent gate supports a variety of operation modes, which can be operated manually or achieved by remote control, which is very convenient. At the same time, it is closely integrated with vehicle detectors and computerized toll management systems to achieve efficient management.

It is particularly worth mentioning that the intelligent road gate has excellent anti-collision function. When the rod arm is accidentally hit by a vehicle, it can immediately sense and automatically return to the state of only open, effectively protecting the safety of the road gate and passing vehicles. This reflects its strong design in terms of security.

Company Profile

Product description

- 1.-The traffic barrier is widely used for the facilities of parking, traffic or toll system.
- 2.-Arms can be chosen from 1meters to 6 meters.
- 3.-This type of barrier could match with direct boom(pole), fold boom Or fence boom..
- 4.When power off, we can lift up the boom arm by hand directly
- 5.-All the process is soft without any noise and shaking.
- 6.-Housing color: yellow,red ,blue,black,white (optional)
- 8.-Boom arm direction can be chosen leftward to rightward.
- 8.-Auto warming up,suitable for cold environment.

Parameters

Technical Parameters

Size	330*270*1020mm
Power supply	DC 24V
Open/close speed	0.3s to 6s
Working temperature	-30~60°C
Rated power	140w
Motor rated speed	1500r/min
Humidity	<=85%
Remote control distance	30 m
Max boom length	6m
External power	220V 50/60HZ

Product picture

interior structure:

Big torque motor
Collision resistant motor

Toll station motor

**MCBF more 5 million
times**

Fast response

Packing & Delivery

The packaging of 18B unit motor

1.Put polyurethane foam inside

2.Cover with plastic and put the
motor into the carton

3.Seal the carton with tape

To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided.
