Basic Information

- Brand Name: CBG
- Certification: CE
- Model Number: 21B
- Minimum Order Quantity: 1

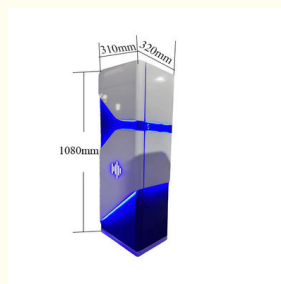

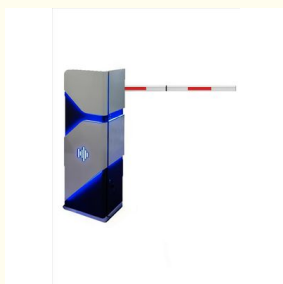

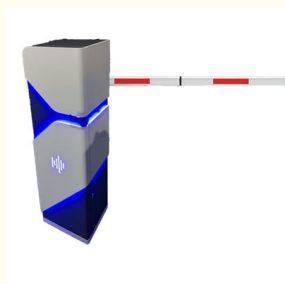

Product Specification

- Motor Type: DC 24V Brushless Motor
- Color Option: Color Option
- Box Color: Grey, Yellow, Red, White Gold Etc
- Motor Rated Power: 100W,max 120W
- Mtb: >5 Million Times
- Part Number: RPH01-PLUS
- Boom Direction: Exchangeable
- Opening/Closing Time: 1.5 Seconds
- Highlight: **AC220/AC110 Parking Barrier Gate,
White Gold Parking Barrier Gate**

Product Description

Product Description:

Product Summary: Parking Barrier Gate

The Parking Barrier Gate is a versatile and reliable solution for managing vehicle access in various settings, from residential complexes to commercial parking lots. This Automatic barrier gate is designed to provide efficient control over vehicle entry and exit, ensuring safety and security on premises.

Color Option: Color Option

With customizable color options, the Parking Barrier Gate can be seamlessly integrated into different environments, enhancing the overall aesthetic appeal while maintaining functionality.

Boom Direction: Exchangeable

The boom barrier is designed with an exchangeable boom direction feature, allowing for flexible installation based on specific requirements. This ensures ease of use and adaptability to different traffic flow scenarios.

Material: Steel

Constructed from durable steel, the Parking Barrier Gate offers robust performance and long-lasting durability, making it suitable for both indoor and outdoor applications. The steel material provides strength and resistance to environmental factors, ensuring reliable operation in various conditions.

Housing Size: 310 * 330 * 1080mm

The compact housing size of 310 * 330 * 1080mm allows for easy installation in limited spaces, making it ideal for areas with space constraints. Despite its small footprint, the Parking Barrier Gate delivers efficient performance and effective access control.

Arm Length: 6m

Equipped with a 6m arm length, the boom barrier provides enhanced coverage for controlling vehicle access, allowing for efficient management of entry and exit points. The extended arm length ensures comprehensive security measures and smooth traffic flow within the premises.

Enhance security and streamline vehicle access management with the Parking Barrier Gate. Whether it's controlling access to parking facilities or regulating traffic in high-traffic areas, this boom barrier offers a reliable and user-friendly solution. The Automatic barrier gate functionality ensures seamless operation and ease of use, making it an essential component for effective access control systems.

Features:

Traffic boom gate: Parking Barrier Gate

Motor Rated Power: 100W, max 120W

Power Input: AC220V/AC110V 50/60HZ

Material: Steel

Opening/Closing Time: 1.5 Seconds

Certificates: CE Approved

Technical Parameters:

Part Number	RPH01-PLUS
Motor Type	DC 24V Brushless Motor
Arm Length	6m
Certificates	CE Approved
Material	Steel
Motor Rated Power	100W,max 120W
Box Color	Grey, Yellow, Red, White Gold Etc
Opening/Closing Time	1.5 Seconds
Mtbf	>5 Million Times
Power Input	AC220V/AC110V 50/60HZ

Applications:

The CBG 21B Automatic barrier gate is a high-quality product designed for various parking management applications. With its reliable performance and durable construction, this boom barrier is suitable for a wide range of scenarios.

Whether it is a commercial parking lot, residential complex, office building, or industrial facility, the CBG 21B Automatic barrier gate can effectively control vehicle access and ensure security. Its automatic operation makes it convenient for both users and operators, enhancing overall efficiency.

Manufactured in China, this barrier gate meets the CE certification standards, ensuring safety and quality. The CE Approved certification guarantees that the product complies with European Union regulations, making it a reliable choice for customers worldwide.

The CBG 21B Automatic barrier gate has a high MTBF (>5 Million Times), indicating its long-lasting performance and minimal maintenance requirements. This makes it a cost-effective solution for businesses and organizations looking for a durable parking

management system.

With a motor rated power of 100W (max 120W) and a rating power of 100W, the CBG 21B Automatic barrier gate offers efficient operation while consuming minimal energy. Its gross weight of 40KGS ensures stability and durability, even in high-traffic environments. Whether you need to control access to a parking facility, manage traffic flow, or enhance security measures, the CBG 21B Automatic barrier gate is a versatile solution that can meet your requirements. With a minimum order quantity of 1, it is easy to acquire and install this reliable product for your parking management needs.

Customization:

Product Customization Services for the Parking Barrier Gate:

Brand Name: CBG

Model Number: 21B

Place Of Origin: China

Certification: CE

Minimum Order Quantity: 1

Certificates: CE Approved

Motor Rated Power: 100W,max 120W

Motor Type: DC 24V Brushless Motor

Rating Power: 100W

Color Option: Color Option

Support and Services:

Our Product Technical Support and Services for the Parking Barrier Gate include:

- Installation guidance and assistance
- Troubleshooting support for any technical issues
- Regular maintenance services to ensure optimal performance
- Software updates and upgrades to enhance functionality
- Training sessions for users and operators
