

## RFID Access Control Automatic Barrier Gate For Smooth Barrier Open/close Time Of 0.8-6s And Controlled Access

Our Product Introduction

more products please visit us on [automaticbarriersgates.com](http://automaticbarriersgates.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: CBG
- Model Number: 21B-ZY
- Delivery Time: 3
- Payment Terms: T/T
- Supply Ability: 2000 Piece/Pieces per Month

### Product Specification

- Material: Metal
- Turnstile Function: Automatic
- Selling Point 1: Operate At High Speed: The CBG High Speed Traffic Barrier Gate System Is Designed To Provide Quick And Efficient Car Parking Management, Making It An Ideal Solution For Busy Parking Lots Or Commercial Areas.
- Communication Interface: RFID
- Protection Level: 1000M
- Barrier Open/close Time: 0.8-6s
- Barrier Motor: 21B Motor
- Product Name: Fast Opening/Closing Time Automatic

Product Description:

The Automatic Barrier Gate is a top-of-the-line product in the category of Intelligent Barrier Gate systems. Designed to provide efficient and reliable access control, this Barrier Gate Motor offers a range of features that make it a standout choice for various applications. One of the key selling points of this product is its durability and robustness. With an impressive output power of 120W, the CBG barrier gate system is built to withstand heavy usage, ensuring long-term reliability. Its durable features allow it to operate for at least 5 million times before experiencing any significant degradation in performance, making it a cost-effective solution for high-traffic areas. Equipped with a RFID communication interface, the Automatic Barrier Gate offers seamless integration with existing access control systems, enhancing security and convenience. This feature allows for efficient management of authorized vehicle access, making it an ideal choice for parking facilities, industrial sites, and other restricted areas.

Another compelling selling point of the CBG High Speed Traffic Barrier Gate System is its focus on safety and reliability. Backed by a 2-year warranty, this product ensures that customers receive a dependable and secure solution for their access control needs. With an insulation class of F and a voltage of DC24V, this Barrier Gate is suitable for installation in diverse environments while meeting stringent safety standards.

Furthermore, the Automatic Barrier Gate is designed for easy installation and maintenance, making it a user-friendly choice for property owners and facility managers. Its compact design and adjustable boom lengths of up to 6 meters facilitate quick and hassle-free setup, saving time and effort during the installation process.

In addition, the gate's low altitude compatibility of up to 1000M further enhances its versatility, allowing for installation in various locations without compromising performance. This flexibility makes the Car Barrier Gate an excellent solution for a wide range of applications, from commercial parking lots to residential communities.

Regular maintenance of the Automatic Barrier Gate is simplified by its ability to handle a high number of operations without compromising its performance. This feature reduces downtime and ensures smooth operation over an extended period, adding to the overall reliability and efficiency of the system.

Features:

Product Name: Automatic Barrier Gate

Access control type: RFID

Turnstile function: Automatic

Selling Point 5: Easy installation and maintenance: The CBG barrier gate system is compact and easy to install, thanks to its adjustable boom lengths of up to 6 meters. Additionally, its low altitude compatibility of up to 1000M makes it suitable for installation in various locations. Regular maintenance is also simplified due to the gate's ability to handle a high number of operations.

Barrier motor: 21B Motor

Protection Level: 1000M

Technical Parameters:

Parameter	Value
Selling Point 3	Weatherproof and waterproof: The gate system is specially designed to function in various weather conditions, thanks to its robust weatherproof and waterproof capabilities. It can withstand the elements and maintain performance, making it suitable for both indoor and outdoor parking management.
Material	Metal
Brand Name	CBG
Access control type	RFID
Protection Level	1000M
Product Category	Automatic Barrier Gate
Selling Point 1	Operate at high speed: The CBG High Speed Traffic Barrier Gate System is designed to provide quick and efficient car parking management, making it an ideal solution for busy parking lots or commercial areas.
Barrier motor	21B Motor

Barrier open/close time	0.8-6s
Turnstile function	Automatic

## Applications:

Product Application Occasions and Scenarios for the CBG Automatic Barrier Gate:

The CBG 21B-ZY Automatic Barrier Gate is a versatile and reliable solution suitable for a wide range of applications. Whether you need to control vehicle access in a commercial parking lot, manage traffic flow in a residential area, or secure an industrial facility, this electronic barrier gate system is the ideal choice.

With its durable and robust design, the CBG Barrier Gate System is perfect for high-traffic areas where a reliable access control solution is essential. Its 120W output power ensures that it can withstand heavy usage, making it ideal for busy locations such as toll booths, airports, and shopping centers.

Thanks to its easy installation and maintenance features, the CBG Fence Barrier Gate is also well-suited for scenarios where quick setup and minimal downtime are crucial. The adjustable boom lengths of up to 6 meters allow for flexibility in installation, while the gate's ability to handle a high number of operations simplifies regular maintenance tasks.

Whether you require a barrier gate system for a small parking area or a large industrial complex, the CBG 21B-ZY model is a versatile solution that can meet your needs. Its safety and reliability features, including a 2-year warranty and insulation class of F, ensure that you can trust this gate to perform consistently in various environments.

Order your CBG Automatic Barrier Gate today from Guangdong, China, with a minimum order quantity of 2 pieces and payment terms of T/T. With a supply ability of 20000 Piece/Pieces per month and a delivery time of 3 days

## Support and Services:

The Product Technical Support and Services for the Automatic Barrier Gate include:

- Installation guidance and support to ensure proper setup of the barrier gate system.
- Troubleshooting assistance to address any technical issues that may arise during operation.
- Regular maintenance services to keep the barrier gate in optimal working condition.
- Software updates and firmware upgrades to enhance the performance and security of the barrier gate.
- Training programs for users and maintenance personnel to ensure efficient operation and upkeep of the barrier gate.

## Packing and Shipping:

Product Packaging for Automatic Barrier Gate:

- The automatic barrier gate is securely packaged in a sturdy cardboard box to prevent any damage during transit.
- Each component is carefully wrapped and cushioned to ensure safe delivery.

Shipping Information:

- Orders are typically processed and shipped within 1-2 business days.
- We offer various shipping options, including standard and expedited delivery.
- Once your order is shipped, you will receive a tracking number to monitor the delivery status of your automatic barrier gate.

## FAQ:

**Q: What is the brand name of this automatic barrier gate?**

A: The brand name is CBG.

**Q: What is the model number of this automatic barrier gate?**

A: The model number is 21B-ZY.

**Q: Where is this automatic barrier gate manufactured?**

A: It is manufactured in Guangdong, China.

**Q: What is the minimum order quantity for this automatic barrier gate?**

A: The minimum order quantity is 2 pieces.

**Q: What are the payment terms accepted for purchasing this automatic barrier gate?**

A: The accepted payment terms are T/T.
