Basic Information

- Brand Name: CBG
- Certification: CE
- Model Number: 18B
- Minimum Order Quantity: 2
- Supply Ability: 20000 Sets/month

Product Specification

- Insulation Class: F
- Barrier Box Color: Silver And Orange /yellow / Blue
- Protection Degree: Ip44
- Operating Temperature: -30°C To 60°C
- Boom Materials: Aluminum Alloy
- Trade Terms: EXW, FOB
- Advanced Manual Release: YES
- Speed Time: 0.3s/0.6s/1.2s/2.5s/4s

Product Description

Product Description:

The Automatic Barrier Gate is a versatile and reliable solution for managing vehicle access in various settings, such as parking lots, toll booths, and other restricted areas. This high-quality barrier gate is designed to provide efficient and secure control over vehicle entry and exit, making it an ideal choice for commercial and industrial applications.

Operating within a wide temperature range of -30°C to 60°C, this automatic barrier gate is suitable for use in diverse environmental conditions, ensuring consistent performance even in extreme weather conditions. With a motor power ranging from 140W to 200W, this barrier gate delivers robust operation while maintaining energy efficiency.

The barrier box of this automatic gate is available in multiple striking colors, including silver and orange, yellow, and blue, enhancing visibility and aesthetics at the entrance points. Whether you prefer a bold orange hue or a subtle silver finish, there is a color option to suit your specific requirements and complement the surrounding environment.

Equipped with variable speed settings, the Automatic Barrier Gate offers flexible control over the speed of the boom barrier, with options ranging from 0.3 seconds to 4 seconds. This customization allows you to adjust the barrier speed according to the traffic flow and security needs of your location, ensuring smooth and efficient vehicle access management.

When it comes to trade terms, this barrier gate is available on both EXW (Ex Works) and FOB (Free On Board) basis, providing flexibility in shipping and delivery options to meet your logistical preferences. Whether you prefer to manage the transportation arrangements yourself or opt for a more hands-off approach, the choice is yours with these trade term options.

In conclusion, the Automatic Barrier Gate is a reliable and user-friendly solution for controlling vehicle access in a variety of settings, from parking lots to toll booths. With its durable construction, customizable speed settings, and attractive color options, this boom barrier offers both functionality and aesthetic appeal, making it a top choice for businesses and organizations seeking efficient access control solutions.

Features:

Product Name: Automatic Barrier Gate

Operating Temperature: -30°C To 60°C

Technical Parameters:

Trade Terms	EXW, FOB
Operating Temperature	-30°C To 60°C
Insulation Class	F
Boom Materials	Aluminum Alloy
Speed Time	0.3s/0.6s/1.2s/2.5s/4s
Motor Power	140-200W
Advanced Manual Release	YES
Protection Degree	Ip44
Barrier Box Color	Silver And Orange / Yellow / Blue
Housing	1.5mm Steel With Painting

Applications:

CBG Automatic Barrier Gate 18B is a high-quality product suitable for a variety of application occasions and scenarios. With its advanced features and reliable performance, this barrier gate is a perfect solution for controlling vehicle access in both residential and commercial settings.

The 4-6m arm barrier length of the CBG 18B model makes it ideal for parking lots, toll booths, industrial facilities, and other locations where access control is essential. Its sturdy aluminum alloy boom materials ensure durability and long-lasting performance even in high-traffic environments.

With CE certification, customers can trust the quality and safety of the CBG 18B barrier gate. The IP44 protection degree guarantees resistance to dust and water, making it suitable for outdoor installations.

The motor power of 140-200W provides efficient operation, while the 1.5mm steel housing with painting offers added protection against the elements. The CBG 18B also features an advanced manual release system, ensuring smooth operation even in case of power outages or emergencies.

Whether you need to control access to a parking garage, private driveway, or restricted area, the CBG 18B automatic barrier gate is the perfect solution. With a minimum order quantity of 2 units and a supply ability of 20000 sets per month, you can rely on CBG to meet your needs promptly and efficiently.
