Specification

item	value
Communication Interface	RS485
Place of Origin	China
Barrier open/close time	0.6-6s
Access control type	RFID
Turndown function	Collision Avoidance
Barrier motor	Brushless motor

Protection Level	IP44
Operation Direction	One-way
Brand Name	CBG
Material	Aluminium alloy

Selling Point

1. Long-lasting operating lifespan: Boasting an impressive operating life of over 5 million cycles, this durable CBG Vehicle Barrier Gate is built to withstand heavy usage in outdoor environments. Its robust construction guarantees reliable performance over an extended period.

2. Versatile boom barrier length: The gate's adjustable boom barrier length ranges from 1.5 to 6 meters, ensuring compatibility with various parking facility requirements. This feature allows for easy customization to suit specific site dimensions.

3. Efficient speed and control: The barrier gate operates at a speed of 0.6 to 6 seconds, depending on the arm length, ensuring a smooth and swift transition for vehicles entering and

exiting the parking area. This reliable speed control contributes to an uninterrupted flow of traffic.

4. Weather-resistant design: Specifically designed for outdoor use, the gate is equipped with robust waterproof capabilities, making it suitable for various weather conditions. This feature guarantees reliable performance even during periods of heavy rain or snow.

5. Extensive warranty coverage: CBG offers a 2-year warranty on the Vehicle Barrier Gate Motor, and other accessories, providing customers with peace of mind and ensuring that any potential manufacturing defects are addressed promptly and at no additional cost.

The product, CBG Vehicle Barrier Gate, is a state-of-the-art solution for parking lot management. With a working temperature range of -30-60 degrees Celsius and power supply of 140W, it is ideal for outdoor use. The gate features a folding telescopic barrier that can be adjusted between 1.5 to 6 meters in length, making it suitable for a

wide variety of parking facilities. Its operating speed of 0.8 to 6 seconds, depending on the arm length, ensures a smooth and efficient flow of traffic.

Company Introduction

Established since 2005 as the Shenzhen Chengbang Electromechanical Industry Limited, we specialize in producing high-quality aluminum SHELL motors, non-standard reducers and motors for various projects. With our robust boom barrier mechanisms, we have remained a top player in the industry for over a decade. Servicing a substantial client base, we have grown with over 100 employees and 3 major production facilities.

We understand the critical role of expertise in meeting and exceeding our customers' expectations. Our team consists of highly skilled and experienced professionals who are committed to continuous improvement. Our aim is to provide our clients with the best solutions based on their unique requirements. We also pride ourselves on our ability to offer customized

solutions that perfectly align with your needs.

We stand as a testament to our clients' satisfaction with our quality business ethics and operational efficiency. From concept to delivery, we're committed to delivering ultimate satisfaction.
