
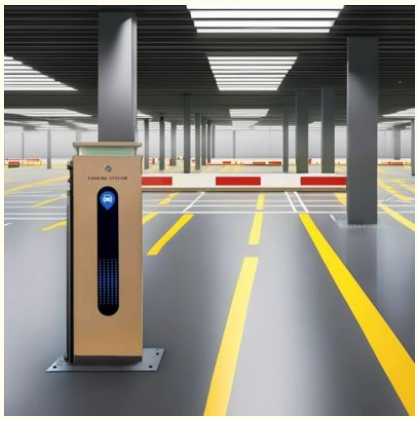
IP54 Waterproof Automatic Boom Barrier DC24V 6M Outdoor

Our Product Introduction

Basic Information

- Brand Name: CBG
- Certification: CE
- Model Number: 21B



Product Specification

- Protection Level: IP54
- Special Features: Waterproof / Weatherproof
- Material: Galvanized Steel
- Work Voltage: DC-24V
- Max Boom Length: 6 Meters
- Usage: Outdoor
- Housing Color: Yellow/grey/etc
- Input Voltage: DC24V
- Highlight: **IP54 waterproof boom barrier**, **automatic boom barrier DC24V**, **outdoor boom barrier 6M**

Product Description

Product Description:

A Boom Parking Barrier, also known as a Boom Barrier Gate or Automatic Boom Barrier, is an essential solution for controlling vehicle access in outdoor environments. This sturdy and reliable product ensures smooth traffic management while enhancing security measures.
The Boom Barrier operates efficiently with an input voltage of DC24V, providing sufficient power to support its functions. With an output power of 120W, it delivers the necessary force to raise and lower the barrier effectively.
Designed to handle a maximum boom weight of 20kg, this Boom Barrier is suitable for various settings where controlled access is required. Whether it's a parking lot, residential complex, commercial property, or industrial site, this barrier gate offers a dependable solution for maintaining order and security.
Available in a vibrant housing color such as yellow, grey, or other options, this Boom Barrier not only serves a functional purpose but also adds a visual element to the surrounding environment. The choice of colors allows for customization to match existing aesthetics or improve visibility for drivers and pedestrians.
Installing an Automatic Boom Barrier provides numerous benefits, including efficient traffic flow management, enhanced security, and a professional appearance for the property. The automated operation of the barrier gate ensures quick and convenient access for authorized vehicles while restricting entry to unauthorized ones.
With its robust construction and weather-resistant design, the Boom Barrier is suitable for outdoor use, standing up to various environmental conditions. Its durable materials and reliable mechanism ensure long-lasting performance, reducing maintenance needs and ensuring continuous operation.
Overall, the Boom Parking Barrier is a versatile and effective solution for controlling vehicle access in outdoor spaces. Its combination of functionality, durability, and ease of use makes it a valuable addition to any location that requires efficient traffic management and enhanced security measures.

Features:

Product Name: Boom Barrier
Usage: Outdoor
Input Voltage: DC24V
Output Power: 120W
Maximum Boom Weight: 20kg
Material: Galvanized Steel

Technical Parameters:

Work Voltage	DC-24V
Usage	Outdoor
Max Boom Length	6 Meters
Special Features	Waterproof / Weatherproof
Material	Galvanized Steel
Protection Level	IP54
Maximum Boom Weight	20kg
Housing Color	Yellow/grey/etc
Input Voltage	DC24V
Output Power	120W

Applications:

The CBG 21B Boom Barrier is a versatile and reliable product designed for a wide range of Product Application Occasions and Scenarios. With CE certification and a housing available in colors like yellow and grey, this boom barrier is suitable for various environments.
One of the key features of the CBG 21B Boom Barrier is its Electric Boom Lift functionality, allowing for smooth and efficient operation in different settings. Whether it's controlling access to parking lots, residential areas, or industrial sites, this boom barrier offers a secure solution.
For highway applications, the CBG 21B Boom Barrier serves as an essential component for managing traffic flow and ensuring safety. Its DC-24V work voltage and input voltage make it compatible with different power sources, offering flexibility in installation.
With a maximum boom weight capacity of 20kg and the ability to handle booms up to 6 meters in length, this boom barrier is ideal for both light and heavy-duty use. Its sturdy construction and reliable performance make it a practical choice for various Product Application Occasions and Scenarios.
Whether it's controlling vehicle access at toll booths, securing entry points at commercial facilities, or integrating with access control systems, the CBG 21B Boom Barrier delivers consistent and effective operation. Its versatility and durability make it a valuable asset for enhancing security and traffic management in diverse settings.

Customization:

Enhance your Boom Parking Barrier with our Product Customization Services for the CBG 21B model. Our services include customization options such as CE certification, IP54 protection level, and a maximum boom weight of 20kg. Designed for outdoor use, this Boom Barrier Gate operates on DC-24V and features special waterproof/weatherproof capabilities to ensure durability in any weather condition. Elevate your Barrier Arm Gates with our customization services today!

Support and Services:

The Boom Barrier product technical support and services include:
- Providing installation guidance and support for setting up the boom barrier correctly.
- Offering troubleshooting assistance for any technical issues that may arise during operation.
- Conducting regular maintenance checks to ensure the boom barrier functions properly and remains in good condition.
- Providing training sessions for users on how to operate and maintain the boom barrier effectively.

Packing and Shipping:

Product Packaging and Shipping for the Boom Barrier:
The Boom Barrier product will be carefully packaged to ensure its safe delivery to you. Each boom barrier will be securely wrapped in protective materials to prevent any damage during transit.
For shipping, we partner with reliable courier services to deliver your boom barrier in a timely manner. You will receive a tracking number once your order is dispatched so you can monitor the delivery progress.

FAQ:

Q: What is the brand name of this Boom Barrier product?
A: The brand name of this Boom Barrier product is CBG.
Q: What is the model number of this Boom Barrier product?
A: The model number of this Boom Barrier product is 21B.
Q: Does this Boom Barrier product have any certifications?
A: Yes, this Boom Barrier product is certified with CE certification.
Q: What is the maximum length of the Boom Barrier arm?
A: The maximum length of the Boom Barrier arm is 6 meters.
Q: Can this Boom Barrier product be integrated with access control systems?
A: Yes, this Boom Barrier product can be easily integrated with various access control systems for added security measures.
