

OEM / ODM Accepted Boom Gate Motor with -30C to 60C Temperature Range and 3-6S Operating Time

Our Product Introduction

more products please visit us on automaticbarriersgates.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: CBG, CBG
- Model Number: 20B-V
- Minimum Order Quantity: 1
- Price: \$110-133

Product Specification

- Arm Length: 2m
- Application: Parking Lot, Toll Parking Barrier Gate, 24v Parking Barrier Gate
- Voltage: DC24V / 2A
- Humidity: 85% Or Lower
- Color: Green
- Operating Time: 3-6S
- Output Efficiency: 40W
- Usage: Parking Gate Control For Entry And Exit Of Vehicles With Billing Functionality

Product Description

Product Description:

The Boom Gate Motor is a high-quality product designed to provide efficient and reliable operation for your gate system. With a gate operation time of 3-6 seconds, this Boom Arm Drive Motor ensures quick and smooth opening and closing of the gate, enhancing security and convenience for users.

The motor is equipped with a boom arm with a length of 2 meters, allowing for effective coverage of a wide range of gate sizes. This Boom Arm Drive Motor is designed to deliver optimal performance, ensuring that your gate operates seamlessly and securely. Operating at a current of 2A, this Boom Arm Motor is energy-efficient and cost-effective, helping you save on electricity bills while enjoying the benefits of a reliable gate system. The motor is designed to operate efficiently and effectively, providing consistent performance over time.

With a humidity tolerance of 85% or lower, this Boom Gate Motor is suitable for use in various weather conditions, ensuring reliable operation even in humid environments. The motor is built to withstand outdoor elements, making it a durable and long-lasting solution for your gate system.

When it comes to packing and delivery, rest assured that you will receive professional, environmentally friendly, convenient, and efficient services. The Boom Gate Motor is carefully packaged to ensure safe transportation and delivery to your location. Our packaging services are designed to protect the motor from damage during transit, ensuring that you receive your product in perfect condition.

Features:

Product Name: Boom Gate Motor

Current: 2A

Output Efficiency: 40W

Usage: Parking gate control for entry and exit of vehicles with billing functionality

Color: Green

Boom Length: <=2M

Keywords: Gate Arm Motor, Barrier Gate Motor, Parking Barrier Motor

Technical Parameters:

Voltage	DC24V / 2A
Insulation Class	F
Arm Length	2m
Packing & Delivery	Professional, environmentally friendly, convenient, and efficient packaging services provided
Temperature Range	-30 to +60
Color	Green
Humidity	85% or lower
Gate Operation Time	3-6S
Output Efficiency	40W
Application	Parking Lot, toll Parking Barrier Gate, 24v Parking Barrier Gate

Applications:

Product Application Occasions and Scenarios for the Barrier Gate Motor.- Boom Arm Drive Motor:-
The Barrier Gate Motor, also known as the Boom Arm Drive Motor, is a versatile and reliable product that is ideal for various access control applications. Originating from Guangdong, China, under the trusted brand name CBG, the model number 20B-V offers exceptional performance and durability.

With a minimum order quantity of 1 and a price range between \$110 and \$133, this Gate Motor is a cost-effective solution for parking gate control systems. Its gate operation time of 3-6 seconds ensures swift and efficient entry and exit of vehicles, making it suitable for both high-traffic commercial areas and residential properties.

The Barrier Gate Motor is designed to operate efficiently in a wide temperature range from -30 to +60, making it suitable for various weather conditions. Its output efficiency of 40W ensures consistent performance while consuming minimal energy.

This Access Control Motor is equipped with billing functionality, making it perfect for parking facilities that require automated payment systems. Whether it's a shopping mall, office building, or residential complex, the Barrier Gate Motor provides a secure and convenient access control solution.

Additionally, with a humidity tolerance of 85% or lower, this motor is suitable for outdoor installations where exposure to moisture is a concern. Its robust construction and reliable performance make it a preferred choice for parking management systems.

Support and Services:

The Product Technical Support and Services for the Boom Gate Motor product include:

- Installation assistance and guidance
- Troubleshooting support for any operational issues
- Maintenance tips and recommendations
- Warranty information and claims processing
- Product training and user manuals

Packing and Shipping:

Product Name: Boom Gate Motor

Description: The Boom Gate Motor is a high-quality motor designed to operate boom gates efficiently and reliably.

Package Contents: - Boom Gate Motor unit - Installation instructions - Warranty card

Shipping Information: - Shipping method: Standard delivery - Shipping cost: Calculated at checkout - Estimated delivery time: 3-5 business days

FAQ:

Q: Where is the Boom Gate Motor manufactured?

A: The Boom Gate Motor is manufactured in Guangdong, China.

Q: What is the brand name of the Boom Gate Motor?

A: The brand name of the Boom Gate Motor is CBG.

Q: What is the model number of the Boom Gate Motor?

A: The model number of the Boom Gate Motor is 20B-V.

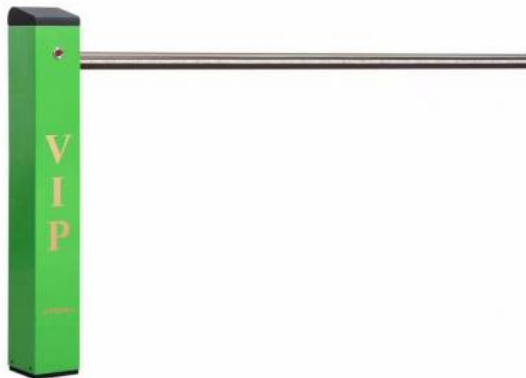

Q: What is the minimum order quantity for the Boom Gate Motor?

A: The minimum order quantity for the Boom Gate Motor is 1.

Q: What is the price range of the Boom Gate Motor?

A: The price of the Boom Gate Motor ranges from \$110 to \$133.
