

Boom Gate Motor with 3-6S Operating Time, DC24V / 2A Voltage, and 40W Output Efficiency for Parking Barrier Control

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: CBG, CBG
- Model Number: 20B-V
- Minimum Order Quantity: 1
- Price: \$110-133

Product Specification

- Operating Time: 3-6S
- Current: 2A
- Output Efficiency: 40W
- Usage: Parking Gate Control For Entry And Exit Of Vehicles With Billing Functionality
- MCBF: 5 Million Times
- Insulation Class: F
- Humidity: 85% Or Lower
- Arm Length: 2m
- Highlight: **3-6S Operating Time Boom Gate Motor, DC24V / 2A Voltage Parking Barrier Motor, 40W Output Efficiency Gate Arm Motor**

Product Description

3-6S Operating Time Parking Barrier Motor for DC24V / 2A Voltage

Product Overview

The Boom Gate Motor is a versatile and reliable solution designed for efficient operation of barrier gates, gate arms, and boom arms. Engineered to withstand extreme weather conditions with a temperature range of -30 to +60 , this motor ensures consistent performance in any environment. Its durable construction and high-quality components provide long-lasting access control.

Key Features

- **Operating Time:** 3-6 seconds for swift gate operation
- **Temperature Range:** -30 to +60 for all-weather reliability
- **MCBF:** 5 million cycles for extended durability
- **Insulation Class:** F for superior electrical protection
- **Color:** Sleek green finish for visibility and aesthetics
- **OEM/ODM:** Customization options available

Technical Specifications

Output Efficiency	40W
Voltage	DC24V / 2A
Current	2A
Arm Length	2m
Temperature Range	-30 to +60
Humidity Tolerance	≤85%
MCBF	5 Million Times
Insulation Class	F

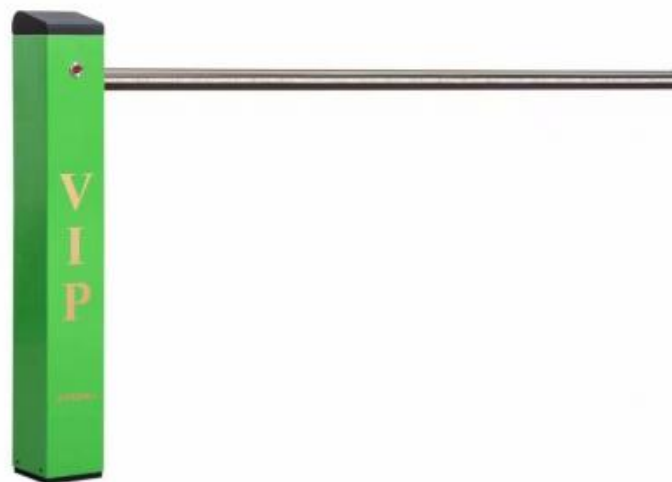

Applications

This high-performance motor is ideal for various access control scenarios including:

- Parking lot barrier systems
- Toll parking barrier gates
- 24V parking barrier installations
- Commercial and industrial access control
- Residential gate automation

Support & Services

Comprehensive technical support is available for installation, troubleshooting, and maintenance. Our team provides training and resources to ensure optimal performance and longevity of your boom gate motor.

Packaging & Shipping

Each motor is securely packaged in a sturdy cardboard box with protective foam padding, including all necessary mounting hardware and an instruction manual. Orders are processed within 1-2 business days and shipped via reliable courier with tracking information provided.

Frequently Asked Questions

Where is the Boom Gate Motor manufactured?

Manufactured in Guangdong, China by CBG.

What is the model number?

Model 20B-V.

What is the minimum order quantity?

Minimum order quantity is 1 unit.

What is the price range?

\$110-133 per unit.
