Product Description

Product Description:

The Automatic Barrier Gate is an advanced and reliable solution designed to control vehicle access in various environments such as parking lots, residential communities, commercial complexes, and industrial sites. As an essential component of modern access control systems, this Automatic Gate Operator offers seamless operation, enhanced security, and efficient traffic management, making it an indispensable tool for both private and public facilities.

Featuring state-of-the-art technology, the Automatic Barrier Gate ensures smooth and rapid opening and closing of barriers, minimizing waiting times and improving the flow of vehicles. Its robust construction and high-quality materials provide durability and long-lasting performance, even in harsh weather conditions. This makes the Automatic Gate Operator suitable for outdoor installation, guaranteeing consistent operation throughout the year.

One of the standout features of this Automatic Barrier Gate is its integration capability with various access control devices such as RFID readers, remote controls, ticket dispensers, and biometric scanners. This flexibility allows facility managers to customize the system according to their specific security requirements, enhancing the overall safety and convenience for users. Additionally, the Automatic Gate Operator supports multiple control methods, including manual override options, ensuring uninterrupted operation during power outages or emergencies.

Incorporating an Advertising Barrier Gate option, this product not only controls access but also serves as a unique platform for marketing and promotional activities. The advertising panels integrated into the barrier arm or the gate housing provide an excellent opportunity for businesses to display brand messages, announcements, or advertisements to a captive audience. This dual functionality adds value to the investment by combining security management with effective advertising space, making it a cost-efficient solution for commercial properties.

The Automatic Barrier Gate is also designed with safety as a priority. Equipped with advanced sensors and safety mechanisms, it detects obstacles in the path of the barrier arm to prevent accidents or damage to vehicles and pedestrians. The smooth and quiet operation further enhances user experience, reducing noise pollution in sensitive areas such as residential neighborhoods or hospitals.

Installation and maintenance of the Automatic Gate Operator are straightforward, thanks to its modular design and user-friendly interface. The system comes with comprehensive instructions and technical support to ensure quick setup and hassle-free operation. Routine maintenance is simplified with easily accessible components, reducing downtime and operational costs.

Energy efficiency is another notable attribute of this Automatic Barrier Gate. It utilizes low power consumption motors and intelligent control systems to minimize energy usage without compromising performance. This eco-friendly approach aligns with modern sustainability goals and helps reduce the overall carbon footprint of the facility.

In summary, the Automatic Barrier Gate is a versatile and efficient Automatic Gate Operator that combines security, convenience, and advertising potential in a single package. Its durable construction, advanced technology, and safety features make it ideal for a wide range of applications. Whether managing vehicle access in a busy commercial area or enhancing security in a gated community, this Automatic Gate Operator delivers reliable performance and exceptional value. The added benefit of the Advertising Barrier Gate functionality provides businesses with a unique opportunity to maximize their visibility while maintaining strict access control, making it a smart investment for any property owner.

Features:

High-quality Automatic Gate Operator for reliable performance
Durable and motorized parking gate suitable for various environments
Efficient automatic entry gate system for smooth vehicle access
Fast and quiet operation to minimize noise disturbance
Easy installation and low maintenance requirements
Compatible with multiple access control systems
Weather-resistant design for outdoor use
Safety features including obstacle detection and auto-reverse function
Adjustable boom arm length to fit different barrier widths
Energy-efficient motor for reduced power consumption

Technical Parameters:

Product Name	Automatic Barrier Gate
Type	Advertising Barrier Gate, Motorized Parking Gate, Automatic Security Barrier
Operating Voltage	AC 220V ±10%, 50/60Hz
Power Consumption	120W
Opening/Closing Time	3-6 seconds (adjustable)
Barrier Arm Length	3 to 6 meters
Control Method	Remote Control, Loop Detector, Button, RFID
Operating Temperature	-40°C to +75°C
Protection Level	IP54
Material	Cold Rolled Steel with Powder Coating
Net Weight	Approx. 35 kg

Features	Automatic Security Barrier with Advertising options and Motorized Parking Gate functions

Applications:

The CBG 18B-ZY Automatic Barrier Gate, originating from Guangdong, China, is an advanced Automated Barrier System designed to enhance security and control access in various environments. This motorized parking gate offers reliable and efficient operation, making it ideal for a wide range of application occasions and scenarios.
One of the primary applications of the CBG 18B-ZY Automatic Entry Gate is in commercial parking lots. It efficiently manages vehicle flow, allowing authorized vehicles to enter and exit seamlessly while preventing unauthorized access. Its robust motorized mechanism ensures quick response times, reducing congestion during peak hours.
Residential communities and gated neighborhoods benefit significantly from the installation of this Automated Barrier System. The CBG 18B-ZY enhances the safety of residents by controlling entry points, providing peace of mind through its dependable automatic operation. It can be integrated with access control systems, such as RFID cards or remote controls, to offer customized access solutions.
In industrial and corporate premises, the Automatic Entry Gate serves as a critical security measure. It regulates access to restricted areas, ensuring that only authorized personnel and vehicles can enter. The motorized parking gate's durability and high supply ability—up to 2000 pieces per month—make it a preferred choice for large-scale projects requiring multiple units.
The CBG 18B-ZY is also well-suited for public facilities such as hospitals, schools, and government buildings, where controlled vehicle access is essential. Its quick delivery time of 3 days and flexible minimum order quantity of just 2 pieces make it convenient for both small and large installations. Payment terms via T/T and competitive pricing starting at $360.00 per piece for orders between 2 and 99 units further enhance its appeal.
In summary, the CBG 18B-ZY Automatic Barrier Gate by CBG is a versatile and efficient motorized parking gate that fits a variety of occasions and scenarios. Whether for commercial, residential, industrial, or public use, this Automated Barrier System provides a secure, reliable, and cost-effective solution for controlling vehicle access and improving overall security.

Support and Services:

Our Automatic Barrier Gate product is designed to provide reliable and efficient access control for various applications. For technical support, please refer to the product manual included in the package, which contains detailed installation instructions, troubleshooting tips, and maintenance guidelines.
If you encounter any issues during installation or operation, ensure that all electrical connections are secure and that the barrier arm is properly aligned. Regular maintenance, such as lubricating moving parts and checking for obstructions, will help maintain optimal performance.
We offer comprehensive after-sales services including warranty coverage, repair, and replacement of defective parts. Our technical support team is committed to assisting you with any product-related inquiries to ensure your Automatic Barrier Gate operates smoothly and efficiently.
For software updates and accessory purchases, please consult our official website or authorized distributors. We recommend using only genuine parts and accessories to maintain product integrity and safety standards.
Your satisfaction is our priority. We strive to provide prompt and effective support to maximize the lifespan and functionality of your Automatic Barrier Gate system.

Packing and Shipping:

Product Packaging and Shipping for Automatic Barrier Gate
The Automatic Barrier Gate is carefully packaged to ensure it arrives in perfect condition. Each unit is securely packed in a sturdy wooden crate or reinforced carton box, with protective foam padding to prevent damage during transit.
All accessories, including the control panel, remote controls, mounting hardware, and installation manual, are neatly organized and packed within the main packaging.
For shipping, we offer multiple options including sea freight, air freight, and express courier services to accommodate your delivery schedule and budget.
Before dispatch, each barrier gate undergoes a thorough quality inspection and functional test to guarantee optimal performance upon arrival.
Tracking information will be provided once the shipment is dispatched, allowing you to monitor the delivery status in real time.
We recommend inspecting the packaging upon receipt and reporting any damages immediately to ensure prompt resolution.

FAQ:

Q1: What is the brand and model number of the Automatic Barrier Gate?
A1: The Automatic Barrier Gate is from the brand CBG, and the model number is 18B-ZY.
Q2: Where is the Automatic Barrier Gate manufactured?
A2: The Automatic Barrier Gate is manufactured in Guangdong, China.
Q3: What is the minimum order quantity for this product?
A3: The minimum order quantity for the Automatic Barrier Gate is 2 pieces.
Q4: What are the payment terms for purchasing the Automatic Barrier Gate?
A4: The payment terms for this product are T/T (Telegraphic Transfer).
Q5: How many units can be supplied per month, and what is the typical delivery time?
A5: The supply ability is 2000 pieces per month, and the typical delivery time is 3 days.
Q6: What is the price range for the Automatic Barrier Gate?
A6: The price is $360.00 per piece for orders between 2 and 99 pieces.
