Product Description

Product Description:

The Automatic Barrier Gate is a state-of-the-art solution designed to control vehicle access efficiently and securely in various environments such as parking lots, residential complexes, commercial buildings, and industrial sites. Combining robust engineering with advanced technology, this Advertising Barrier Gate not only provides reliable access control but also offers an excellent platform for advertising, making it a multifunctional asset for any property.

As an Automatic Entry Gate, this product is engineered to facilitate smooth and swift vehicle entry and exit, minimizing wait times and enhancing overall traffic flow. Its automated mechanism is powered by a high-torque motor that ensures rapid and quiet operation, reducing noise pollution and wear and tear. The barrier arm is constructed from durable materials that withstand harsh weather conditions, ensuring long-lasting performance and minimal maintenance.

One of the standout features of this Automatic Access Barrier is its versatility in integration with various access control systems. It supports RFID card readers, remote controls, loop detectors, and even license plate recognition systems, allowing seamless integration into existing security infrastructures. This adaptability makes it suitable for a wide range of applications, from controlling access to private parking areas to managing entry points in high-security zones.

In addition to its functional benefits, the Advertising Barrier Gate is designed with marketing opportunities in mind. The barrier arm and housing can be customized with branding, logos, or promotional messages, turning an essential security device into a dynamic advertising medium. This unique feature enables businesses and property managers to generate additional revenue or enhance brand visibility while maintaining strict access control.

Safety is a paramount consideration in the design of this Automatic Entry Gate. It is equipped with multiple safety features including infrared sensors that detect obstacles in the path of the barrier arm, preventing accidents and damage to vehicles or pedestrians. The system also includes manual override options and emergency release mechanisms to ensure operation continuity during power failures or system malfunctions.

The installation process of the Automatic Access Barrier is straightforward and efficient, supported by comprehensive technical documentation and expert customer service. The gate's compact design allows it to fit into tight spaces without compromising functionality. Its energy-efficient motor and control system contribute to reduced operational costs, making it an environmentally friendly and economical choice for access control.

Furthermore, the Automatic Barrier Gate boasts advanced control options, including remote monitoring and management capabilities via mobile apps or centralized control systems. This feature allows property managers to oversee multiple barrier gates from a single interface, enhancing operational efficiency and security oversight.

In summary, the Automatic Barrier Gate is an innovative and reliable solution that merges access control with advertising potential. Its robust construction, advanced automation features, safety mechanisms, and integration flexibility make it an ideal choice for managing vehicle access in a wide array of settings. By choosing this Advertising Barrier Gate, users benefit from enhanced security, improved traffic management, and an additional avenue for promotional activities, all combined into one efficient and elegant system.

Features:

High-performance Automatic Gate Operator for efficient vehicle access control

Equipped with LED boom for enhanced visibility and safety

Durable and weather-resistant design suitable for all environments

Fast and smooth operation for seamless passage of vehicles

Automated Barrier System ensures reliable and secure entry management

Easy installation and low maintenance requirements

Compatible with various access control devices and remote systems

Energy-efficient motor with low power consumption

Adjustable boom length to fit different entry widths

Safety features including obstacle detection and emergency release

Technical Parameters:

Product Name	Automatic Barrier Gate
Type	Advertising Barrier Gate / Motorized Parking Gate / Automatic Security Barrier
Operating Voltage	AC 220V ±10%, 50/60Hz
Power Consumption	120W
Barrier Arm Length	3m, 4m, 5m (customizable)
Opening/Closing Time	3-6 seconds (adjustable)
Operating Temperature	-20°C to +70°C
Control Method	Remote Control, Loop Detector, Infrared Sensor
Protection Level	IP54
Material	Cold Rolled Steel with Powder Coating
Net Weight	Approximately 35kg
Features	Advertising Display Panel, Anti-Collision, Manual Release

Applications:

The CBG 18B-ZY Automatic Barrier Gate, originating from Guangdong, China, is an advanced solution designed for a variety of application occasions and scenarios. This high-quality product is ideal for managing vehicle access in parking lots, gated communities, commercial complexes, and industrial zones. With a minimum order quantity of just 2 pieces and a competitive price of $360.00 per piece for orders between 2 to 99 units, it offers excellent value for businesses seeking reliable and efficient access control systems.
One of the standout features of the CBG 18B-ZY is its integration of LED Advertising, which allows the barrier to double as a dynamic marketing platform. This feature is particularly useful in commercial areas and shopping centers where visibility and advertisement can enhance customer engagement while controlling vehicle entry. The LED boom Automatic Vehicle Barrier ensures that the gate arm is highly visible in all lighting conditions, improving safety and operational efficiency.
In scenarios requiring stringent security measures, the CBG 18B-ZY functions effectively as an Automatic Security Barrier. It can be employed at sensitive locations such as government buildings, private estates, and industrial facilities to regulate access with precision and reliability. The automatic parking barrier functionality supports seamless vehicle flow, reducing congestion and enhancing the overall management of parking resources.
Due to its robust design and supply ability of 2000 pieces per month, the CBG 18B-ZY is suitable for large-scale deployment projects. Whether it is for new infrastructure developments or upgrades to existing access control systems, this automatic parking barrier gate offers quick delivery within 3 days after payment via T/T, demonstrating CBG's commitment to customer satisfaction and operational efficiency.
Overall, the CBG 18B-ZY LED boom Automatic Vehicle Barrier is a versatile and dependable choice for various application occasions. Its combination of LED advertising capabilities, automatic security barrier functions, and efficient parking management makes it an ideal product for businesses and organizations aiming to enhance security, promote branding, and streamline vehicle access control.

Support and Services:

Our Automatic Barrier Gate product is designed to provide reliable and efficient access control for various applications including parking lots, toll booths, and restricted areas. To ensure optimal performance and longevity of your barrier gate, please follow the installation and maintenance guidelines provided in the user manual.
For technical support, please ensure you have the product model number and serial number ready when seeking assistance. Our support team is trained to help with troubleshooting, installation guidance, and maintenance advice to quickly resolve any issues you may encounter.
We recommend regular inspection and cleaning of the barrier arm and mechanical components to prevent dust and debris buildup. Lubrication of moving parts should be done periodically as specified in the maintenance schedule. Always disconnect power before performing any maintenance tasks to ensure safety.
Software updates and firmware upgrades may be available to enhance the functionality and security of your Automatic Barrier Gate. Check our official website or product portal regularly for the latest updates and installation instructions.
For service and repairs, use only authorized service centers and genuine replacement parts to maintain the integrity and warranty of your product. Unauthorized repairs or modifications may void the warranty and affect product performance.
We are committed to providing ongoing support and services to help you maximize the benefits of your Automatic Barrier Gate. Please refer to the product documentation for detailed instructions or visit our online resources for FAQs, user guides, and troubleshooting tips.

Packing and Shipping:

Product Packaging and Shipping
The Automatic Barrier Gate is carefully packaged to ensure it arrives in perfect condition. Each unit is securely wrapped with protective materials and placed inside a sturdy, custom-designed carton box to prevent damage during transit.
For added safety, internal cushioning is used to absorb shocks and vibrations. The packaging dimensions and weight are optimized for efficient shipping while maintaining product integrity.
We offer multiple shipping options including air freight, sea freight, and express courier services to meet your delivery requirements. All shipments are tracked and insured for your peace of mind.
Before dispatch, each Automatic Barrier Gate undergoes thorough quality checks to guarantee functionality and reliability upon arrival. Installation manuals and necessary accessories are included within the package.
Our logistics team works diligently to ensure timely delivery and excellent customer service throughout the shipping process.

FAQ:

Q1: What is the brand and model number of this automatic barrier gate?
A1: The automatic barrier gate is branded CBG, and the model number is 18B-ZY.
Q2: Where is the CBG 18B-ZY automatic barrier gate manufactured?
A2: This product is manufactured in Guangdong, China.
Q3: What is the minimum order quantity for the CBG 18B-ZY automatic barrier gate?
A3: The minimum order quantity is 2 pieces.
Q4: What are the payment terms available for ordering this barrier gate?
A4: The payment terms accepted are T/T (Telegraphic Transfer).
Q5: How many units of the CBG 18B-ZY barrier gate can be supplied per month, and what is the delivery time?
A5: The supply ability is 2000 pieces per month, and the typical delivery time is 3 days.
Q6: What is the price per piece for orders between 2 and 99 units?
A6: The price is $360.00 per piece for orders ranging from 2 to 99 pieces.
