

Heavy Duty Automatic Barrier Gate with Fast Opening Speed and LED Advertising for Automatic Parking Barrier Access Control

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: CBG
- Model Number: 18B-ZY
- Minimum Order Quantity: 2 pieces
- Price: $360.00/pieces 2-99 pieces
- Delivery Time: 3
- Payment Terms: T/T
- Supply Ability: 2000 Piece/Pieces per Month

Product Specification

- Highlight: **Heavy Duty Automatic Barrier Gate**, **Fast Opening Automatic Barrier Gate**, **Commercial Parking Automatic Barrier Gate**

Product Description

Product Description:

The Automatic Barrier Gate is an advanced solution designed to enhance security, control access, and streamline vehicle management in various environments. As an essential component in modern parking facilities, gated communities, commercial complexes, and industrial sites, this product offers a perfect blend of durability, efficiency, and smart technology. The Automatic Barrier Gate operates seamlessly to provide controlled entry and exit, ensuring that only authorized vehicles gain access to restricted areas. Its robust construction and reliable mechanism make it an indispensable asset for any location requiring secure and efficient access control.

One of the standout features of this product is its identity as an Automatic Access Barrier that incorporates cutting-edge automation technology. This ensures smooth, quick, and silent operation, minimizing wait times and reducing congestion at entry points. The Automatic Access Barrier can be integrated with various access control systems such as RFID readers, remote controls, ticket dispensers, and biometric devices, providing versatile options to meet different security needs. The automation not only improves traffic flow but also enhances safety by reducing the possibility of unauthorized access and human error.

In addition to its core functionality, this Automatic Barrier Gate is equipped with LED Advertising capabilities, making it a multifunctional device that serves both security and promotional purposes. The built-in LED display allows businesses, parking operators, and property managers to display dynamic advertisements, announcements, or important information to drivers and visitors. This feature turns the barrier gate into a powerful communication tool, generating additional revenue opportunities through advertising while maintaining its primary role as a parking access control device.

Designed specifically as an LED Advertising Automatic Parking Barrier, the product combines high visibility with operational excellence. The LED panels are bright, energy-efficient, and customizable, allowing for eye-catching graphics, text, and animations that can be updated remotely. This adaptability helps keep the messaging fresh and relevant, attracting more attention from passing vehicles. The integration of advertising with parking management adds significant value, making the barrier gate a smart investment for parking lot owners, shopping centers, airports, and other high-traffic venues.

Durability is another hallmark of the Automatic Barrier Gate. Constructed from premium materials such as galvanized steel and reinforced aluminum, the gate is built to withstand harsh weather conditions and heavy usage. The barrier arm is designed for strength and flexibility, capable of operating in various environments without frequent maintenance. Its corrosion-resistant coating and sturdy housing protect internal components, ensuring longevity and reliable performance over time.

Installation and maintenance of the Automatic Access Barrier are straightforward and user-friendly. The system is engineered for quick setup, compatible with standard power supplies and network configurations. Its modular design allows easy access to components for routine servicing or upgrades. Additionally, safety features such as obstacle detection sensors and emergency manual operation are integrated to prevent accidents and provide fail-safe functionality in case of power failure or system malfunction.

Energy efficiency is also a key consideration in the design of this Automatic Barrier Gate. The LED Advertising Automatic Parking Barrier consumes minimal power, making it an environmentally friendly choice. Its intelligent control system optimizes operation cycles, reducing unnecessary energy usage while maintaining high responsiveness and performance. This focus on sustainability helps businesses reduce operational costs and support green initiatives.

In summary, the Automatic Barrier Gate is a versatile, reliable, and innovative solution for access control and advertising needs. As a state-of-the-art Automatic Access Barrier, it guarantees secure and efficient vehicle management. The added feature of LED Advertising Automatic Parking Barrier functionality transforms it into a dual-purpose device that enhances communication and revenue potential. With robust construction, ease of integration, and energy-efficient operation, this product is ideally suited for a wide range of applications, delivering exceptional value and performance to its users.

Features:

Durable and reliable Automatic Barrier Gate for enhanced security
High-performance Motorized Parking Gate mechanism for smooth operation
Designed as an Automatic Security Barrier to control vehicle access effectively
Fast opening and closing speed to optimize traffic flow
Robust motorized system ensures long-lasting performance
Easy integration with access control systems and sensors
Weather-resistant construction suitable for various environments
User-friendly installation and maintenance procedures
Energy-efficient motor reduces power consumption
Suitable for commercial, residential, and industrial parking facilities

Technical Parameters:

Product Name	Advertising Barrier Gate
Type	Automated Barrier System
Power Supply	AC 220V ±10%, 50/60Hz
Operating Voltage	DC 24V
Barrier Arm Length	3m / 4m / 5m (customizable)
Opening/Closing Time	1.5 to 6 seconds (adjustable)
Operating Temperature	-40°C to +75°C
Control Method	Remote control, loop detector, push button
Protection Level	IP54

Application	Electric Vehicle Barrier, Parking Lots, Toll Stations
Net Weight	Approximately 35 kg
Material	Cold rolled steel with powder coating

Applications:

The CBG 18B-ZY Automatic Barrier Gate, originating from Guangdong, China, is an advanced solution designed to enhance security and streamline vehicle access in various environments. This product is ideal for use in parking lots, residential communities, commercial complexes, and industrial facilities where efficient vehicle management and security are paramount. With its robust construction and reliable performance, the CBG 18B-ZY serves as an essential component in modern access control systems.
One of the key features of this model is its integration of LED Advertising, which allows businesses and property managers to display dynamic messages or promotions on the barrier arm. This innovative LED boom Automatic Vehicle Barrier not only controls vehicular entry but also serves as a marketing tool, capturing the attention of drivers and pedestrians alike. This dual functionality makes it suitable for shopping malls, airports, and event venues where advertising and security need to coexist seamlessly.
The Automatic Security Barrier is engineered for high efficiency and durability, offering quick response times and smooth operation to prevent unauthorized access while facilitating the swift flow of authorized vehicles. It is widely used in toll gates, corporate parking areas, government buildings, and hospitals, where security and operational efficiency are critical. The barrier's automatic mechanism reduces the need for manual intervention, thereby minimizing human error and enhancing overall security protocols.
CBG's supply ability of 2000 pieces per month ensures that the 18B-ZY model can meet large-scale deployment needs, while a minimum order quantity of 2 pieces makes it accessible for smaller projects as well. Payment terms via T/T provide convenience and flexibility for buyers. With a competitive price of $360.00 per piece for orders between 2 and 99 units and a delivery time of just 3 days, this product offers an excellent balance of affordability and rapid availability.
Overall, the CBG 18B-ZY Automatic Barrier Gate is perfectly suited for various application occasions including commercial parking management, secure facility access, event control points, and advertising platforms. Its combination of LED Advertising capabilities, automatic vehicle barrier function, and robust security features makes it an indispensable asset for any location requiring controlled and efficient vehicle access.

Support and Services:

Product Technical Support and Services for the Automatic Barrier Gate are designed to ensure optimal performance and reliability of your access control system. Our team of experienced technicians provides comprehensive assistance including installation guidance, troubleshooting, maintenance tips, and software updates.
We offer detailed product documentation and user manuals to help you understand the features and functionalities of the Automatic Barrier Gate. Should you encounter any technical issues, our support staff is available to provide step-by-step solutions to quickly resolve your concerns.
Regular maintenance services are recommended to prolong the lifespan of the barrier gate. These services include inspection of mechanical components, lubrication, calibration of sensors, and testing of electrical connections to maintain smooth operation.
For enhanced system performance, we provide firmware upgrades and software enhancements that can be easily installed to keep your Automatic Barrier Gate up-to-date with the latest technology improvements.
Our support services also include remote diagnostics and assistance, allowing us to identify and address problems efficiently without the need for an on-site visit, saving time and reducing downtime.
Please refer to the product warranty terms and conditions for information on coverage and service policies. We are committed to delivering high-quality support to ensure your Automatic Barrier Gate operates safely and effectively.

Packing and Shipping:

Product Packaging and Shipping for Automatic Barrier Gate
The Automatic Barrier Gate is carefully packaged to ensure safe delivery and ease of installation. Each unit is securely packed in a sturdy wooden crate or reinforced cardboard box, with foam padding and protective materials to prevent damage during transit. All components, including the barrier arm, control panel, mounting hardware, and user manual, are neatly organized and labeled within the package.
Before packaging, each barrier gate undergoes thorough quality inspections and functional testing to guarantee optimal performance upon arrival.
Shipping options include sea freight, air freight, and express delivery, depending on customer requirements and destination. The packaging is designed to withstand handling stresses during transportation, ensuring the product reaches its destination in perfect condition.
For bulk orders, customized packaging solutions and palletizing services are available to facilitate efficient loading and unloading.
Delivery times vary based on shipping method and location, with tracking information provided to keep customers informed throughout the shipping process.
Our dedicated logistics team works closely with reliable carriers to ensure timely and secure delivery of your Automatic Barrier Gate.

FAQ:

Q1: What is the brand and model number of this Automatic Barrier Gate?
A1: The brand is CBG and the model number is 18B-ZY.
Q2: Where is this Automatic Barrier Gate manufactured?
A2: It is manufactured in Guangdong, China.
Q3: What is the minimum order quantity for this product?
A3: The minimum order quantity is 2 pieces.
Q4: What payment terms does CBG accept for the Automatic Barrier Gate?
A4: Payment is accepted via T/T (Telegraphic Transfer).
Q5: How many Automatic Barrier Gates can be supplied per month and what is the delivery time?
A5: The supply ability is 2000 pieces per month, and the delivery time is 3 days.
Q6: What is the price per piece for orders between 2 and 99 pieces?
A6: The price is $360.00 per piece for orders between 2 and 99 pieces.
